INTER-SCHOOL CYCLING TOURNAMENT

Inter-school competition for 8 schools

Fully organised multi-school Cycling Tournament

A full day of competition, planned, arranged and delivered on your chosen school site.

Following successful events in West and North Yorkshire in recent years, we are now offereing school partnerships, trusts and local auhtorities the opportunity to run similar events in their area.

Our service is fully managed, providing everything from planning and contacting schools, to developing the program, providing equipment and delivering the event at a selected school location.

We are happy to work with individual schools as well as sports partnerships, clusters or trusts wanting to introduce a cycling element to their competitive school's sport provision. We are also happpy to help organise and run area-wide qualifying and inter-school events. (see our. Competiton & Training Days) We can also provide training for schools planning on entering team into the Sainsbury's School Games festivals and regional qualifying events.

"'We thoroughly enjoyed the event. The children love the engagement and the competitiveness. It's wonderful to see so many children taking part in an event that is so different and that they enjoy so much. Such a valuable experience.'"

Neil Saunders, Deputy Head,
The Michael Syddall Primary School,
Catterick, North Yorkshire
